*1995, 1999 & 2001 (for the Outlying Areas Only): due to a calculation error in these years this chart reflects the corrections which are different from the original data.

*In 2001 we received new person's per household data which affected the population. We also received authorization to treat RV's differently which affected some of the smaller areas that had several RVs, i.e. Urban County Islands.

*2006 Based on revised data, the 2006 Population for Clark County is 1,925,654.

Shifts in the population estimates may occur annually due to the vacancy rates and the Census Persons Per Household figures.

N/A refers to population not being reported for that year.
