

MIGRATION ESTIMATES*

	2008 Population	minus	2007 Population	Population Increase
Clark County	1,986,146		1,996,542	-10,396
	2007 Births		2007 Deaths	Natural Increase
Annual Natural Increase = (births – deaths**)	30,451		12,100	18,351
Annual Migration = (population increase – natural increase)	-28,747			
Average Monthly Migration =	<div style="background-color: #1a3a7a; color: white; padding: 2px; display: inline-block;">-28,747 ÷ 12 months</div> →		-2,396	
Average Monthly Natural Increase =	<div style="background-color: #1a3a7a; color: white; padding: 2px; display: inline-block;">18,351 ÷ 12 months</div> →		1,529	

*It is assumed that natural increase is included in the annual population figure.

**Birth and death rates are based on 2007 preliminary numbers January through December and are subject to change.
